## TIME IN THE CRAFT

**04 YEARS**
Figma design practice

**02 YEARS**
Graphic design

**01 YEAR**
AI-driven design

## WORKING TOOLKIT

FIGMA · AI-ASSISTED UX · PHOTOSHOP · ILLUSTRATION · VISUAL SYSTEMS · PROTOTYPING

## EDUCATION

### GUILAN UNIVERSITY

*Graphic Design*

Visual communication, composition, and the craft of making an idea visible.

HUMAN INTENT / MACHINE MOMENTUM

DESIGNER PROFILE — RASHT / IRAN

# Kayhan

**AI-DRIVEN UX DESIGNER** — UI/UX + VISUAL DESIGN

AI-driven UX designer with a visual design foundation and hands-on experience across Figma interface design, graphic design, and illustration. I combine human-centred design thinking with AI-assisted exploration to move from rough ideas to clear, considered digital experiences. AI accelerates the process; design judgment shapes the outcome.

## EXPERIENCE

4 YEARS / DESIGN PRACTICE

### SENIOR UX DESIGNER

2024 - 2026

*Independent / small-business project work*

- Shape user journeys, information structure, and high-fidelity Figma prototypes, balancing usability with a distinctive visual point of view.
- Use AI-assisted ideation and rapid visual exploration to expand concepts and iterate faster, refining outputs with UX reasoning and hands-on design decisions.

### JUNIOR GRAPHIC DESIGNER

2022 - 2024

*Local brand and small-business design projects*

- Created brand graphics, campaign layouts, social content, and supporting illustrations for visual communication briefs.
- Applied typography, hierarchy, colour, and Photoshop-based image work to keep assets visually consistent across formats.

## DESIGN APPROACH

Start with the problem. Use AI as a creative partner for speed and breadth, then refine the result through interface logic, clear hierarchy, and attention to detail.
